to implement alternate method for compliance with Evektor Mandatory Service Bulletin Sportstar-002a in above mentioned aircraft. This method is based on installation of fire sleeve over the left rubber radiator hose protecting the hose from damage caused by close proximity to the exhaust pipe

- The work must be carried out to comply with ASTM Standard-F2245-04 Specification for Design and Performance of a Light Sport Aircraft.
- This temporary LoA is issued just for prototype installation making possible to do necessary engineering works, documentation and tests.
- Evektor –Aerotechnik a.s. will issue new unlimited LoA as soon as we approve this documentation (installation drawing, installation procedure, test results).

Your faithfully
